

Pro-Flat Premium PVC Layflat

Product Features

Premium Resins
Resists Contraction and Expansion
Minimal Twisting

Applications

Agriculture
Horticulture
Manifolds
Water Transfer

Product Options

Diameters: 1 1/2" to 8"
Colors: Green

Operating Guidelines

Maximum Operating Pressures:

1.5"	90 PSI
2"	80 PSI
3"	70 PSI
4"	70 PSI
6"	50 PSI
8"	45 PSI

Rivulis Pro-Flat brand Layflat Hose is a versatile, durable hose which meets the needs of growers everywhere. The layflat is made with premium resins which allow the product to withstand the tough conditions endured in the agricultural and the mining industries. The thick wall dimensions and the strong yarn structure help the product to hold connections and resist bursting. Additionally, the construction reduces the amount of rotation and elongation each time the system is pressurized. The layflat is used for a variety of applications for several industries including agricultural, horticultural, and mining. Applications include transfer lines, sub-main lines, and discharge lines.

Pro-Flat is available in numerous sizes to meet the requirements of your design. The premium layflat is a perfect complement to the other Rivulis products in your irrigation system.

Pro-Flat Layflat Hose - Product Specifications

Color	Size	Max. Op. Pressure	I.D.	O.D.	Wall	Roll Length	Number of Rolls Per Pallet	Item Number
